Approaches to tube weaning

Are you a parent or carer of a child who has a nasogastric tube or gastrostomy?
Would you like to know more about how you can help your child eat while they are tube feeding?

This seminar will give you an opportunity to join with other parents and local health professionals to hear Professors Marguerite Dunitz-Scheer and Peter Scheer talk about their '*No Tube Feeding Program*' in Graz, Austria.

Topics to be covered include:

- > principals and practices for successful tube weaning
- > identifying signs when children are ready to wean from the tube
- > resuming and maintaining normal eating patterns
- > family supports for the emotional ride of tube weaning.
